Remotely monitor and control your gates and doors from almost anywhere with your smart device. Time-based features allow you to set gates and doors to automatically close and/or notify after a set length of time; as well as schedule a specific hour and minute to close your gates and doors and/or notify when they do. Also allows for multiple individual user accounts so you can provide virtual key access to a friend, relative, or service person for a certain time, a range of time, or permanently.
